Office of Legislative Counsel

Wednesday - 6 April 1955

-----

1. The Director of Training and I met with Mr. Pollock and Mrs. Messer, of the Civil Service Commission, to discuss the proposed Government-wide bill on training of employees. (See Memorandum for the Record this date).

2. I have informed Miss Bigas, of the office of Chairman Young, Presidential Adviser on Personnel Management, that CIA does not wish to include a repeal of its statutory home leave provisions in the proposed new Government leave statute as originally requested by us. The proposed repealer would require an amendment to Section 5(a)(1) of the CIA Act of 1949, and I stated that we would prefer to include any such amendments in a separate bill of our own which we had in contemplation. Miss Bigas asked me to send a letter to the Bureau of the Budget revising our previous letter.

3. I have informed Mr. Sourwine, Counsel to the Senate Internal Security Subcommittee, that we know of no valuable information secured from the Roumanian Embassy which was recently siezed in Switzerland by a group of dissidents despite newspaper reports to the contrary.
